
Flea Tick & Mosquito

20% Off 1st. Application

Protect your family & pets all summer long from dangerous insects!

We are pleased to offer a professional Flea and Tick Program for your property. With our 4 step treatment program, we can help your pets and kids stay safe!- **Guaranteed** Hot and humid weather conditions are ideal for fleas and ticks to reproduce and infest your yard. Did you know fleas and ticks can lay up to 3,000 eggs at one time? Our flea and tick program can help protect your family and pets from the dangers of Lyme Disease plus other diseases.

Mosquito Control

Nothing ruins a peaceful evening in your backyard more than a swarm of mosquitoes. Mosquitoes carry some of the world's most dangerous diseases. Don't be held hostage indoors. Take action and fight the bite. Our mosquito control systems are designed to help add that extra layer of safety. We provide the most effective and convenient method for managing mosquitoes.

Special Event Spraying

Since the mosquito breeding season is especially prevalent in the summer months, The Turf Pros recognizes the need for special event spraying. Whether you're throwing a Labor Day barbecue or a July 4th fireworks display, The Turf Pros will be there to keep your family, pets and guests from being attacked by mosquitoes! Outdoor occasions will become more memorable when you do not have to worry about mosquitoes.
