

# Mosquito Control

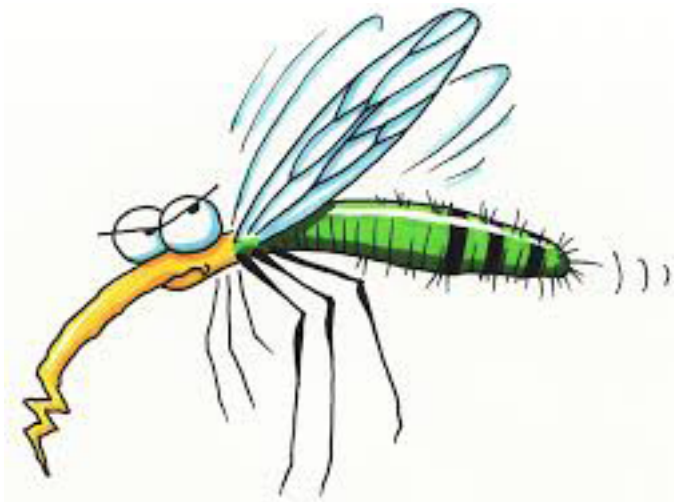

**Nothing ruins a peaceful evening in your backyard more than a swarm of mosquitoes. Mosquitoes are carriers of some of the world's most dangerous diseases. Don't be held hostage indoors, take action and fight the bite. Our mosquito control systems are designed to help add that extra layer of safety. We provides the most effective and convenient method for managing mosquitoes.**

## Keep the Whole Family Safe

We offer a 4 application Mosquito Plan every 3 to 4 weeks. This plan is designed to control the population on Mosquitoes on your property. Our price is based on your property size, not contingent on a long term contract.

## Special Event Spraying

Since Mosquito breeding season is especially prevalent in the summer months, The Turf Pros recognizes the need for special event spraying. Whether you're throwing a Labor Day barbecue or a July 4th fireworks display, The Turf Pros will be there to keep your family, pets and quests from being attacked by mosquitoes! Outdoor occasions will become more memorable when you do not have to worry about the mosquitoes.

## 20% Off Mosquito Control

**Receive 20% off the first application when you sign up for a minimum of 4 applications.  
"New sign ups only."**
